Naiad Baksh

Full-Stack / Front-End Developer | React, TypeScript, Next.js, Node.js
Toronto, ON | naiadbaksh@gmail.com
naiadbaksh.com | linkedin.com/in/naiad-baksh-91963aa0

SUMMARY

Full-stack and front-end developer with 5+ years of experience building production web applications in React, TypeScript, JavaScript and Next.js, backed by Node.js, Python/Django, REST and GraphQL APIs on PostgreSQL and MongoDB. Improved Core Web Vitals (INP, LCP) by 25% and contributed to $1.4M in revenue on high-traffic Jamstack sites. Builds accessible interfaces (AODA, WCAG 2.1 AA), writes tested code (Jest, CI/CD, code review) and ships in Agile/Scrum teams across enterprise, agency and media environments. Currently learning AI engineering.

TECHNICAL SKILLS

Front End: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS, Responsive Design, Cross-Browser Compatibility, Jamstack, Page Load Optimization, Core Web Vitals

Backend & APIs: Node.js, Python, Django, RESTful APIs, GraphQL, Java, Spring Boot, Spring MVC, JPA, Hibernate

Data: PostgreSQL, SQL, MongoDB, NoSQL

Testing & Accessibility: Jest, Selenium, Unit Testing, Front-End Testing, Debugging, AODA, WCAG 2.0/2.1 AA

Tools & Delivery: Git, GitHub, Bitbucket, CI/CD (Continuous Integration/Continuous Delivery), Docker, Azure, Maven, npm, Jira, Figma, Agile/Scrum, GitHub Copilot, VS Code

EXPERIENCE

CBC/Radio-Canada (Contract) **Oct 2025 - Apr 2026**
Full-stack Developer *Toronto, ON*

- Built and debugged full-stack features for a large newsroom platform using React, TypeScript, Python/Django, GraphQL and PostgreSQL.
- Wrote reusable React components and turned business and technical requirements into tested features.
- Built and consumed RESTful services and connected front-end apps to backend APIs and editorial systems.
- Extended integrations with Sofie and backend middleware to support broadcast-ready content workflows.
- Worked in Agile/Scrum (sprint planning, Jira, peer code reviews) with a distributed engineering team across a large organization.
- Used GitHub Copilot day to day and checked every change through code review and testing.

Peninsula Canada **Feb 2024 - Oct 2025**
Software Developer *Toronto, ON*

- Improved Core Web Vitals (INP, LCP) by 25% through task scheduling, code splitting and layout optimization, which contributed to a 12% drop in user attrition.
- Delivered production web experiences that contributed to $1.4M in revenue, 13% monthly traffic growth and a 27% increase in qualified leads.
- Built and maintained enterprise web apps in React, Next.js, TypeScript, Node.js, HTML5 and CSS in high-traffic production.
- Built, tested and integrated REST APIs with Node.js, Django and GraphQL, including authentication and SQL-backed validation.
- Built responsive, accessible interfaces on a Jamstack architecture with reusable React components, following AODA and WCAG 2.1 AA.
- Worked with product managers, UX designers, QA and developers in Agile/Scrum sprints to turn requirements into tested production features.
- Used Git, Jest and CI/CD workflows for development, testing and production releases.

GALE Partners **May 2022 - Feb 2024**
Software Developer *Toronto, ON*

- Built and supported full-stack apps across 9 client projects using React, TypeScript, Node.js, Java/Spring Boot, JPA/Hibernate, SQL, MongoDB and Docker.
- Built REST APIs in Node.js that connected React front ends to relational and NoSQL databases.
- Worked with designers, developers and business stakeholders to elicit requirements and turn specs into working software.

- Debugged and maintained production applications across multiple client environments.
- Supported Git-based version control and CI/CD deployment pipelines across development, testing and production environments.

Vision Capital **Nov 2021 - Apr 2022**
Software Developer *Toronto, ON*

- Modernized 20+ legacy React class components into reusable functional components with Hooks and TypeScript.
- Built and consumed REST APIs connecting React apps to Node.js/Python services and NoSQL databases.
- Built responsive interfaces that worked across browsers and devices and followed WCAG 2.1.

EARLIER EXPERIENCE

Peninsula Canada **Nov 2017 - May 2020**
Team Lead *Toronto, ON*

- Led a team of six sales representatives and generated $1.8M in revenue (top 1% nationally).

Michael Page **Mar 2019 - May 2020**
Recruitment Consultant *Toronto, ON*

- Top 25% performer, billing $120K in annual revenue while building relationships with technology clients.

CYC Labs **Sep 2016 - Nov 2017**
UX Developer *Toronto, ON*

- Designed, developed and delivered three client web applications using React, JavaScript and SQL, from product discovery through implementation.

EDUCATION

Western University - BA, Psychology (Cognitive Neuroscience) Oct 2016
Brainstation - 10-Week Full Time UX Design Bootcamp Aug 2016
